

EMOTIONS MATTER

RESEARCH

**no designated time for education about emotional intelligence,
encouraging empathy, emotional regulation and conflict resolution**

lack of teaching about real life skills,
focus on accumulation of information

WHY EMOTIONS MATTER

- emotional awareness fosters empathy and better social connections
- encouraging open expression reduces aggression and conflict

- recognizing emotions helps prevent stress and emotional suppression
- learning to communicate emotions prepares students for future challenges

How can we foster students' empathy through emotional awareness, hands-on experience, and cooperation?

SOLUTIONS

RULER, Yale University

an approach to social and emotional learning that teaches emotional intelligence to people of all ages, using special tools like Mood Meter

The PATHS® Programme for Schools

fully scripted and resourced, contains lessons for all year groups within primary schools to develop self-control and emotional awareness

OPPORTUNITY **school farm**

- **The farm allows hands-on learning about empathy and responsibility.**
- **Real-life interactions with animals and plants enhance emotional intelligence.**
- **A unique chance to integrate emotional growth into daily school life.**

- **Each child gets a plant to care for**
- **Students take care of animals together**
- **Partnering with local farms, animal shelters, and urban gardens**
- **Kids gain real-world skills in animal care, teamwork, and environmental awareness**
